Job Vacancy Announcement: Invasive Plant Assistant

Applications are invited from interested and suitably qualified persons to fill the Invasive Plant Assistant position at the Department of Natural Resources, Anguilla.

Job Mandate

To assist the Invasive Plant Specialist (IPS) in the delivery of the invasive plant programme under the Darwin Plus project, in pursuit of the strategic and policy requirements placed on the Department of Natural Resources in support of delivering the Invasive Species Strategy.

Key Tasks

Assist the IPS with implementation of the actions under the Darwin Plus project “Protecting Anguilla’s biodiversity by building capacity in invasive plant management (DPLUS125)” through on-the-job training and skill sharing:

- Carry out weed control activities, including manual control and pesticide application;
- Carry out plant monitoring activities, following specific protocols;
- Participate in invasive plant workshops;
- Assist with the development of annual work plans and maintenance of the project budget;
- Source equipment and materials, so that they are procured on time and within budget;
- Work with local stakeholders to ensure harmonious coordination of activities, and share skills and experience in invasive plant management;
- Collect information and data, and contribute to reporting requirements on project activities.

Qualifications, skills, abilities, experience and competencies required for the role

- Passes in CXC English, Mathematics and Science at Grade 3 or above;
- Some knowledge in agriculture or pest management is desirable;
- Experience in invasive plant management, including pesticide application;
- Experience in collaborating with a variety of stakeholders, including conservationists, farmers, landowners and the public;
