

**PROCUREMENT BOARD  
GOVERNMENT OF ANGUILLA  
P O BOX 60  
THE VALLEY  
ANGUILLA**

**PROCUREMENT BOARD RESOLUTION FOR SOLID WASTE DISPOSAL PROCUREMENT**

**Whereas** the Government of Anguilla is committed to maintaining a healthy environment on the island and;

**Whereas** Solid Waste Management Disposal Services are key elements in achieving that goal and;

**Whereas** it is essential that procurement in that area moves forward because the continuing use of short term sole source procurement may fall afoul of the court ruling in the case Webster Management v the Attorney General et al and ;

**Whereas** the Procurement Board has reviewed two Request for Proposal Documents, one produced by the Ministry of Social Development Procurement Committee, the original, and the other a modified version of the original produced by Chief Procurement Officer and;

**Whereas** the Procurement Board is satisfied that relevant adjustments have been made to the Request For Proposal originally produced by the Ministry of Social Development procurement Committee and;

**Whereas** Section 13(2)a and 13(2)d (i) of the Public Procurement and Contract Administration (Amendment) Act outlines the powers of the Board in relation to the use of standard documents and;

**Whereas** the Chief Procurement Officer has already indicated her disagreement with the revised Request for Proposals and;

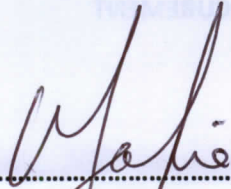

**Whereas** the Chief Procurement Officer has the right to express her disagreement in any forum that she may so desire and;

**Whereas** the Procurement Board is prepared to be accountable for, and is comfortable with its decision in the procurement at hand, especially in comparison to other actions in the procurement process and;

**Whereas** clarifications as specified in the Request for Proposals before the date for the submission of proposals are nothing new in the procurement process;

**Be It Resolved** the Request for Proposals Document as reviewed and modified using input from the Procurement Committee, and the Procurement Board be the document used in the procurement for solid waste management and disposal services.

This 24<sup>th</sup> Day of July 2018

Wycliffe Fahie Ph.D  
Chair Procurement Board
